DILATION

The dilated eye exam is an additional procedure using eye drops and specialized instruments to get the most extensive evaluation of the internal eye structures. Many eye disorders have no symptoms or early warning signs. With dilation beginning problems can be detected ad prevent much earlier. An eye exam cannot be considered a complete exam without dilation. The doctor strongly recommends dilation for the highest standard of care, especially if any of the following apply:

-High Blood Pressure -Frequent or Severe Headaches -Diabetes - Cataracts -Unusual Changes in Vision
-High Nearsightedness -Symptoms of flashes or Floaters - Personal or Family History of Glaucoma

Many people don't wish to have dilation due to blurring of near vision and light sensitivity that may last 4 to 6 hours. **We use new milder drops that can wear off faster.**

****There is no additional cost for dilation****

Please Check One:

☐ I **wish** to have dilation done today ☐ I **do not** wish to have dilation today ☐ Only if the doctor finds it necessary

If patient is a minor (under 18 years old), the parent/guardian MUST sign this form

CONTACT LENS FITTING/RENEWAL AGREEMENT *PLEASE SIGN AND DATE AFTER READING BELOW*

*****NOTE all contact lens exams MUST be done within 90 days from today's date of service. If you mark "NO" a prescription will NOT be given to you today nor will any trials*****

Would you like a Contact Lens Prescription today? YES ☐ NO☐

Contact lens prescriptions generally expire one year after the date of the initial exam. Examination and fitting fee covers professional services only, and do not include the cost of any materials or supplies. Most patients successfully wear contact lenses, but a successful fit and wearing experience cannot be guaranteed. No professional fees will be refunded. Contact lens fitting for the prescription can range from $55 to $350 depending on your visual needs (this does NOT include any contact lenses).

New patients *or* those who are fit in a different contact lens **must have a follow-up visit**, verifying the safety and effectiveness of the contact lenses, before the contact lens prescription will be finalized. Two contact lens follow-up visits are included for the first 30 days after the date of the exam. **If you have not had your contact lens prescription finalized within these 30 days, each follow-up will include a refraction fee of $25 and the fitting fee.** If 90 days have expired since the date of the exam, no follow-up visits will be given to finalize or change the prescription, and a new exam will be required.

New patients will be required to do a training with one of our staff members to make sure you know how to properly put on and take off the contact lenses. We do not allow you to take the trials home without this training, unless you, the patient, have worn contacts in the past. The training will be $25 per session.

Most insurance companies do NOT cover contact lens evaluation/fitting fees or training.
Our doctor or staff would be happy to answer any questions you may have.
